Dear Minister,

I write to you on behalf of the Sporting Shooters' Association of Australia (SSAA National) seeking details of Federal funding provided to the sport of shooting during the past three years.

We request this information to allow us to understand what areas of shooting sport are supported by the Government and what areas are lacking. In this information it would be appreciated if the following criteria could be addressed:

- The amount of funding provided
- When the funding was awarded
- The receiving organisation's details
- What the funding was provided for
- What funding program it was awarded under

SSAA National is the premier body representing firearm owners in Australia. It is made up of more than 130,000 target shooters and hunters from across the country, some of which shoot for recreation, while others have aspirations of representing Australia. Our members also perform an important role in protecting the environment and our native animals through helping control pest animal populations.

Yours sincerely,

Rachael Andrews

Sporting Shooters' Association of Australia
