

# Product Safety Recall

## REMINGTON MODEL 700™ AND MODEL SEVEN™ RIFLES WITH X-MARK PRO® (XMP®) TRIGGERS

**IMPORTANT INFORMATION:** Remington is re-publishing this notice to remind customers of this recall which commenced in 2014. If you have already had your trigger mechanism replaced by a Remington authorised repair station under the 2014 recall there is no need for further action. If you have not, please contact your nearest listed authorised warranty repair station as soon as possible to arrange a replacement.

**Identification:** Only rifles with XMP triggers manufactured between 1 May 2006 to 9 April 2014 are being recalled. To determine if your rifle is subject to this recall identify the serial number and enter it at [xmprecall.remington.com](http://xmprecall.remington.com). For further information on rifle identification (including visual inspection) please visit [www.recalls.gov.au](http://www.recalls.gov.au).

**Safety Issue and Hazard:** Remington has determined that some Model 700 and Model Seven rifles with XMP triggers could under certain circumstances, unintentionally discharge. **Any unintended discharge has the potential to cause injury or death.**

**What to do: STOP USING YOUR RIFLE. DO NOT** attempt to diagnose or repair recalled rifles. Please contact the nearest listed authorised warranty repair station. Arrangements can then be made for a complete factory set trigger mechanism to be replaced while you wait.

Remington encourages all customers who own rifles with triggers subject to this recall to seek a trigger replacement by one of the below authorised warranty repair stations. The stations will replace the XMP trigger of rifles subject to this recall, even if the trigger was modified or adjusted post-purchase by any person not affiliated with Remington.

**Contact:** For further information please email [recall@raytrade.com.au](mailto:recall@raytrade.com.au) or visit [xmprecall.remington.com](http://xmprecall.remington.com)
