Scoring and conduct of events:

It is planned to conduct a major component of this Championship utilizing electronic targetry.

In the event that a shot has not been recorded by an electronic acoustic target, the competitor may be permitted to reshoot the unrecorded shot at the discretion of the Head Scorer who may take advice from the Shoot/Discipline Captain or Discipline Chairman. The competitor will be given realisable time for each unrecorded round of the relay.

In the event that electronic acoustic targets are being used for scoring, it is the competitor's responsibility to ensure their rifle and ammunition combination has the required velocity to register on the target. This can be checked on practice day and if the rounds do not register then a manual target will be available. The target system being used for scoring must be advertised prior to the event. Electronic acoustic targets must not be used for scoring Rimfire or Black Powder Cartridge Target Rifle events.
