CANBERRA ACT 2600

April 20, 2022

Dear Mr Morrison,

On behalf of the Sporting Shooters' Association of Australia (SSAA) I write to implore the political party that forms the 47<sup>th</sup> Parliament of Australia to reinstate the Commonwealth Firearms Advisory Council (CFAC).

I represent the interests of 209,000-plus members of the SSAA state and territory bodies across the country. SSAA members are law-abiding firearms owners, they participate in the legitimate pastimes of sports shooting and recreational hunting. They hunt for food and are the ultimate conservationists, conducting pest animal control while protecting the native flora and fauna we value so highly in Australia.

The Commonwealth Firearms Advisory Council (CFAC) and other similar advisory bodies have successfully worked alongside previous governments, namely through the Attorney General or Minister for Home Affairs and their respective departments. These advisory groups, which have involved SSAA representatives and other key industry stakeholders, have provided mutually beneficial channels of communication to ensure policy and regulations are effectively written and introduced to achieve high levels of public safety outcomes without negatively impacting firearms users and the wider industry.

I look forward to working with you and your fellow Labor Party MPs in the future.

Yours Sincerely,

Lance Miller
