

COMBINED SERVICES

OFFICIAL NATIONAL RULES

No. 5 Revised Nov 2022

Rule 3.2 Classes of Rifles

Rule 3.2.1 Class IO: (Updated October 2023)

Rifle Specs

- Action: Bolt (Keep in mind Pump Actions and Straight Pull rifles may not be allowed in some States, Territories or Countries)
- Calibre: Any Military Calibre
However, to compete in New Zealand the following calibres comply
.223/5.56, .308/7.62, .303, 7.62x39
- Stock: Sporting stock in Polymer, Resin or Wood. **No Chassis and Carbon-Fibre stocks (Cheek riser only if using an ACOG or ELCAN type scope.)** Chassis are allowed if the rifle still makes the weight requirements.
- Barrel: Heavy to 20 inches or max 24 with standard contour. Muzzle brakes are at the discretion of the host club. **(No Match grade or Heavy Fluted Barrels Note weight limit)**
- Scope: Whatever you want but set/locked to 4x for the duration of competition.
(Note weight)
- Trigger: 3 pounds, no set or double triggers, two stage or single is acceptable.
- Magazine: The rifle may be retrofitted with a detachable magazine system if it does not already come with one. **To compete fully in NZSRA or SSAA events a 10-round magazine or 5 Shot Detachable will be needed. (The magazine is not part of the overall weight).**
- Sling: As needed and not part of the rifle's overall weight.
- Bipod: As needed, must be a sporting type not an F Class or target style and is not part of the overall weight.
- Weight: 4.1kg this includes rifle, Bolt, scope, and mounts

Issued by the SSAA Combined Services National Discipline Chairman (Oct 2023)
