Safe firearms storage

Responsible firearm ownership is something we at the Sporting Shooters' Association of Australia (SSAA) take very seriously. In fact, we have a long history of bringing the topic of firearm safety into the spotlight through our magazines, website and many other publications.

In 1999, we encouraged SSAA clubs to focus on safe firearm storage by providing each club with a Secure Your Gun, Secure Your Sport poster for prominent display at their ranges. In 2005 we launched the Secure Your Gun, Secure Your Sport campaign. Progressing on from our desire to create greater awareness among our members and the shooting fraternity about secure firearms storage, we created the National Gun Safe Voucher Program, which ran in 2009 and received support from the firearms industry and the then Minister for Home Affairs, the Hon Brendan O'Connor.

Firearms safety and storage is an ongoing issue and deserves your attention as a legitimate firearms owner, sporting shooter

and recreational hunter. The security of each firearm is up to the individual in possession of it. It is, however, up to all of us to do the right thing to protect our sport. So, ensure you have a secure means of storing your firearms and encourage your mates to do the same.

Police-approved safes are available in a variety of sizes and at a range of prices, meaning there is something for everyone and there is never any excuse for failing to properly secure your firearms. Remember, no matter how good a safe is, it still needs to be installed properly, so if you don't have the skills or time to install your safe, please engage a professional.

In an effort to help you be a responsible firearms owner who securely stores your firearms, we have listed a selection of commercially available safes. Please note that any prices listed are approximate and can vary.

For additional information regarding the storage and transportation of firearms, including on flights and when importing or exporting items through Customs, as well as contact details for each firearms registry, please visit ssaa.org.au/licensing

Firearm categories

Category A

- (a) Air rifles
- (b) Rimfire rifles (excluding self-loading)
- (c) Shotguns (other than self-loading, pump-action or lever-action)

- (a) Self-loading rimfire rifles with a magazine capacity no greater than 10 rounds
- (b) Self-loading and pump action shotguns with a magazine capacity no greater than five rounds

Category D

- (a) Self-loading centrefire rifles designed or adapted for military purposes or a firearm which substantially duplicates those rifles in design, function or appearance
- (b) Non-military style self-loading centrefire rifles
- (c) Self-loading, pump-action and lever-action shotguns with a magazine capacity greater than five rounds
- (d) Self-loading rimfire rifles with a magazine capacity greater than 10 rounds

Category H

- (a) All handguns, including air pistols

Added security with the SSAA Combination Trigger Lock

For added security and peace of mind when travelling with your firearm or when your firearm is not in use, try the SSAA Combination Trigger Lock. The lock has an easy-to-use, ergonomic design and will fit most rifles and pistols, measuring 6x3.5x6.5cm and weighing just 192g.

The SSAA Combination Trigger Lock (code TLOCK) is available for \$19.95 or \$35 for two, and is supplied with instructions on how to change the combination code.

PROTECTED AND SECURED

NANUK waterproof protective cases are designed to protect mission-critical and high value equipment and gear. Built to survive the outdoors, NANUK cases are favored by sportsmen and sportswomen, gun collectors and sporting shooters, law enforcement officers and the military. With NANUK's PowerClaw locking and latching system, your case stays shut and secured until you are ready to open it. For extra security, most of the gun case latches feature an integrated TSA-accepted key lock to keep your equipment securely protected and locked during transit or at home. The reinforced stainless-steel eyelets can be used to secure additional padlocks for even more safety.

'IT'S A MUST'

Mikaela, NSW.

For only \$35 get \$25,000 worth of SSAA Members Firearms Protection.

Today more than 80,000 SSAA members have their firearms and fixed accessories covered against loss, theft and damage. They are covered at home, at the range, while hunting and overseas for up to 28 days. Claims are settled for replacement value (up to 5 years), assessed by an approved firearms dealer and settled promptly. Compare it to your Home and Contents Policy, which may have an excess greater than \$100 and may only cover your firearms at home. Don't risk another year without cover - Trust SSAA Mutual to safeguard your firearms and fixed accessories.

www.ssaib.com.au

MEMBERS FIREARMS PROTECTION

HERE'S WHAT SSAA MEMBERS FIREARMS PROTECTION COVERS:

Claims Settled Promptly

Firearms & Accessories.

All privately owned firearms registered to the member and fixed accessories.

Coverage.

- Accidental loss and damage of the equipment (including whilst in use, excluding chipping and scratching of stock).
- Malicious damage.
- Collision or overturning of the vehicle.
- Fire & extraneous perils.
- Flood
- Theft.

Not Covered.

Theft where the equipment was not stored in an approved gun safe as required by State or Territory authority, other than when the equipment is in use or away from the Insured's premises. Where the Insured or any person or entity to whom the equipment has been entrusted fails to comply with any law relating to either storage, use or handling of the equipment.

Any commentary provided in the advertisement is general advice which does not take into account your individual situation and you should consider SSAA Mutual's Financial Services Guide and Statement of Protection (www.ssaib.com.au) before deciding to become a member and to purchase and hold discretionary protection issued by SSAA Mutual Limited.
